

# **OPM-200**

**High-Performance Optical Power Meter** 

# **Product Overview**

The OPM-200 High Performance Optical Power Meter is the latest generation of Santec power meters. The 2mm InGaAs detector can measure power down to -80 dBm while the integrating sphere detector can measure up to 30 dBm over a wide wavelength range from 840 to 1700 nm. Superior accuracy and selectable averaging between 50 µs to 1 second make the OPM-200 a reliable power meter for almost any application.

The detector is free-space and compatible with our patented SD Slide Detector Adapters. Together with the analog output it is ideal for automated optical alignment. Additionally, choose from 1 to 4 detectors and remote-head options for the ultimate, flexible power meter solution.

### **Features**

- Free-space 2mm InGaAs or integrating sphere detectors
- 840 to 1700 nm wavelength range
- 30 to -80 dBm power ranges
- 50µs averaging
- Touch screen display
- · USB or Ethernet

### **Applications**

- · Optical alignment
- Transceiver testing
- Laser and amplifier characterization
- Transient testing
- Lab and R&D

# **Flexibility**

Choose our remote-head option to give yourself maximum flexibility. There is a threaded mounting hole to help attach it to your work bench. The OPM-200 can be configured with up to 4 detectors.

# **Automated Measurements Made Easy**

It's never been easier to integrate a power meter in an automated process. The OPM-200 is programmable via simple SCPI commands through USB or Ethernet. Automation is further facilitated with our patented, interchangeable SD Slide Detector Adapters.

# **Touch Screen Display**

The large and intuitive touch screen display allows you to clearly see the measured values and easily change your power meter settings such as wavelength, averaging time, min/max function etc.

# **High Speed**

With stable readings at averaging times as short as 50 µs and 128,000 point data logging, the OPM-200 can capture transient behaviours and is suitable for high speed applications.

## **OPM-200 -** High-Performance Optical Power Meter

- OPM-200
- · Optional: remote-head detector and remote-head cable (1.5 m)
- · Calibration certificate
- · Detector cap (SD-CAP)
- · AC power cord
- USB A to USB B cable (1.5 m)
- Ethernet cable (1.5 m)
